

AKSHAYA S

 akshaya12406@gmail.com  6380532803

SUMMARY

Detail-oriented and driven individual with a strong passion for technology and innovation. Solid foundation in Computer Science, including programming principles, data structures, and algorithms. Aspiring Java Developer, eager to contribute to real-world projects and learn from industry professionals. Excellent communication and teamwork skills.

EDUCATION

Bachelor of Technology(B.Tech), Information Technology 2023 – 2027 | CGPA – 9.3
Prince Shri Venkateshwara Padmavathy College of Engineering

Higher Secondary Certificate(HSC) Percentage: 91%
Annai violet Matriculation Higher Secondary School

Secondary School Leaving Certificate(SSLC) 100%
Annai violet Matriculation Higher Secondary School

INTERNSHIP EXPERIENCE

BGR NEO LIMITED 1 June – 30 June | Ambattur
Intern – Front-End Development:
Completed internship with a focus on front-end development Gained hands-on experience in building and designing user interfaces Worked with technologies such as HTML, CSS, and JavaScript

HACKATHONS & ACHIEVEMENTS

Google Developer Group-TechSprint 2025 – Tech4Impact Jan 2026

- Secured **1st Place** at *TechSprint 2025 – Tech4Impact* as Team Lead of *TechPros*.
- Built an Augmented Reality-based solution to address community issues (Phantom Crowd project).

LEAP Open House 2026 Feb 2026

- Secured **2nd Place** at *LEAP Open House 2026*, organized by IITM Incubation Cell in association with Prince Group of Institutions.
- Developed an IoT-based fall detection system for real-time caregiver alerts (*SafeStep*).

PROJECTS

Phantom Crowd

Phantom Crowd is an anonymous, location-anchored reporting platform that uses Augmented Reality to make hidden community problems visible. It empowers citizens to report local issues in real time, creating a transparent and interactive layer of civic awareness.(GDG Hackathon)

SafeStep : Real-Time Fall Detection & Caregiver Monitoring System

IoT-based solution designed to detect elderly falls instantly and notify caregivers in real time. From building the hardware prototype to developing the backend system and caregiver monitoring app, every part of this project was driven by teamwork, collaboration, and continuous learning.

Air Bag for Two-Wheeler (Patented) 01/12/2024

Air bags have revolutionized automotive safety, serving as critical components in reducing injury and mortality rates in vehicular accidents.

SKILLS

Tech Stack

- Java programming
- Python
- C,C++
- Data Structures
- Unity, Unreal(AR/VR)

Soft Skills

- Public Speaking
- Leadership
- Problem Solving
- Quick Learner

CERTIFICATES

- Monolith Research Workshop
- Reverse Engineering Workshop by IITM
- Hack Forge 1.0 – National Level Hackathon
